

Silver Shine Pre-Soak

2334 - 4x1 Gal.

Concentrated Silverware Pre-Soak

Silver Shine is a powerful concentrated silverware pre-soak that has been formulated with alkalis, water conditioners and wetting agents for excellent soil penetration. Used just before washing, Silver Shine guarantees sparkling clean flatware, every time.

DIRECTIONS FOR USE:

Pre-soak: to soften food soil on flatware, pre-soak all flatware prior to machine washing in a solution containing 1 ounces of silver shine pre-soak to 2 gallons of water. Do not mix with chlorine bleach to avoid irritating fumes.

- Removes tarnish from flatware
- Reduces water spotting by coating flatware
- Eliminates the need for hand polishing
