

Delimer

4412 - 2x1 Gal.

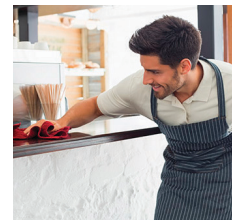

General And Re-Circulating Lime Removal Solvent

Delimer is a high quality solvent for general and re-circulating lime removal. Removes oxidation, urine salts, light rust, lime, and calcium and iron deposits from almost any surface.

DIRECTIONS FOR USE:

Dish machines: fill limited tank to 2 to 3 inches below overflow level. Empty 8-16 ounces per gallon into tank and allow machine to run until lime scale disappears.
Steam tables: brush or spray delimer full strength on all interior surfaces of steam table. Let stand for 10 minutes. Fill with water, turn on heat and bring to operating temperature. Let stand 10 minutes/ brush or scrape off remaining deposits. Drain and rinse thoroughly with water.

- Excellent for de-liming dishmachines and equipment
- Removes lime fast and efficiently
- Non-foaming, concentrated acid formula
