

Liquid Brick

6224 - 4x1 Gal.

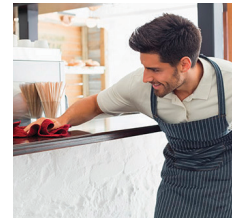

High Temperature Oven and Grill Cleaner

Liquid Brick is a powerful combination of alkaline detergents, emulsifiers, and dispersants specifically formulated for food service and restaurant industries. Liquid Brick will dissolve away the thickest layers of built-up grease and cooking deposits from grills, ovens, grease filter ducts, and deep fryers. Used hot or cold.

DIRECTIONS FOR USE:

Dilute the concentrated material with up to four parts of water. Mix thoroughly. Spray, brush, or flood the surface to be cleaned with the diluted product. Allow the product to rest on the surface for as long as is practical. Wipe away loosened deposits with a clean cloth then rinse the surface with clean water

- Best for hot surfaces
- Removes heavy grease and soils
- Extends life of equipment
